NOTICE

To: All Interested Parties

Subject: 2008 Mid-Year Adjustment to Refund Value per Segregated Pound,

Refund Value per Commingled Pound and Containers per Segregated

Pound Rates

This notice is to inform you of changes in the refund value per segregated pound rates, refund value per commingled pound rates for each type of recycling program, and containers per segregated pound rates. A mid-year rate adjustment is necessary to respond to significant changes in the recycling stream that have occurred over the past few months. In particular, recent data indicate light-weighting of #1 PET and #2 HDPE containers has resulted in higher values for the number of containers per pound for these material types. The refund value per segregated and commingled pound rates need to be raised to reflect these changes in the recycling stream.

New rates for aluminum, glass, plastic, and bimetal beverage containers will be effective July 1, 2008, pursuant to the annual calculation requirement in Public Resources Code Section 14549.5.

Attachment 1 reflects the refund value per pound rates by program type. Table 1 applies only to recycling centers where individual transactions take place. The statewide average containers per segregated pound rate for each material type are also provided here for informational purposes only. Table 2 applies only to material redeemed through reverse vending machines. Tables 3, 4, and 5 are for curbside programs, certified dropoff or collection programs, and community service programs, respectively.

Attachment 2, intended only for use by recycling center operators, is a refund value conversion chart, which reflects the refund values to be paid for consumer transactions. This chart is designed to determine the refund value based on weight received, rounded to the nearest one-tenth pound. This chart is <u>not</u> to be used for curbside, dropoff or collection and community service program transactions.

2008 Segregated and Commingled Refund Value per Pound and Number of Containers per Pound Rates
May 27, 2008
Page 2

Curbside, dropoff or collection and community service programs may exercise their option of conducting an individual commingled rate study to determine rates solely for their program(s).

Attachment 3 specifies the 2008 Individual Commingled Refund Values per Pound and should be used to determine proper payment to applicable curbside, drop-off or collection and community service programs. Individual commingled rates are applicable to specific material types (i.e., aluminum, glass, PET plastic, and HDPE plastic).

A program may use an individual commingled rate for one or more material types and a statewide commingled rate for another. All curbside, drop-off or collection and community service programs not listed on Attachment 3 will continue to receive CRV at the statewide average refund value per commingled pound rates for all material types, until further notice.

NOTE REGARDING HANDLING FEE CALCULATION:

AB 3056 (Chapter 907, Statutes of 2006), revised the Public Resources Code Section 14585 (a) (3) (B) changing the Department of Conservation's (Department) method for calculating the number of handling fee eligible containers per pound. Effective July 1, 2008, the number of containers-per-pound used by the Department to convert redemption weights reported on Handling Fee Applications (DR-14) will be the Containers per Segregated Pound as reported in Column A of Table 1 on Attachment 1. There will be no separate handling fee containers per pound numbers for DR-14 weight to containers conversions for calculating handling fees.

The Department will continue to monitor the beverage container recycling stream with respect to the containers per pound, refund value per segregated pound, and refund value per commingled pound rates. Any significant changes will be analyzed and necessary adjustments will be addressed in future notices.

NOTE TO CERTIFIED RECYCLING CENTERS:

If the changes to the refund value per segregated pound and refund value per commingled pound rates overlap a receipt and log period, it is recommended that a Shipping Report (DR-6) be filled out for the period of the old rate and a separate DR-6 be filled out for the period of the new rate. Failure to separate the weights may delay your payment and the Department will only reimburse payment at the lower rate for the entire reporting period.

2008 Segregated and Commingled Refund Value per Pound and Number of Containers per Pound Rates
May 27, 2008
Page 3

If you have any further questions regarding these refund value per segregated pound, refund value per commingled pound rates or the number of containers per segregated pound, please contact Chris Goetzke at (916) 327-7596 or Darald Walther at (916) 322-4178. For questions regarding the individual commingled refund value per pound rates, please contact Paul Turner at (916) 327-5026. Written comments may be sent via mail to 801 K Street, MS 17-24, Sacramento, CA 95814 or via facsimile to (916) 445-0645.

Stephen M Bantillo Assistant Director for Recycling

PAYMENT OF CALIFORNIA REFUND VALUE EFFECTIVE JULY 1, 2008

California Code of Regulations, Title 14, Section 2500(e), requires recycling centers to post the following refund prices by weight or by container and by material type.

| Table 1. | ALL RECYCLING CENTERS | | |
|--|--|---|---|
| Material Type | (A) Containers Per Segregated Pound | (B)* Refund Value Per Segregated Pound | (C)* Refund Value Per Commingled Pound |
| Aluminum | 29.6 | \$ 1.57 | \$ 1.46 |
| Glass | 1.93 | \$ 0.105 | \$ 0.081 |
| #1 PET Plastic | 14.6 | \$ 0.92 | \$ 0.78 |
| #2 HDPE (High Density Polyethylene) | 6.2 | \$ 0.54 | \$ 0.32 |
| #3 PVC (Vinyl) | 9.8 | \$ 0.56 | Segregated Only |
| #4 LDPE (Low Density Polyethylene) | 42.5 | \$ 2.13 | Segregated Only |
| #5 PP (Polypropylene) | 4.4 | \$ 0.33 | Segregated Only |
| #6 PS (Polystyrene) | 46.4 | \$ 2.32 | Segregated Only |
| #7 Other (includes pouches and unspecified resins) | 5.6 | \$ 0.42 | Segregated Only |
| Bimetal | 5.4 | \$ 0.28 | Segregated Only |

| Table 2. | REVERSE VENDING MACHINES ONLY** | |
|---------------|---------------------------------|--------------------------------------|
| Material Type | | Refund Value Per Commingled Pound |
| Aluminum | | \$ 1.56 |
| Glass | | \$ 0.093 |
| PET Plastic | | \$ 0.86 |

| Table 3. | e 3. CURBSIDE PROGRAMS ONLY | |
|---------------|-----------------------------|--------------------------------------|
| Material Type | | Refund Value Per Commingled Pound |
| Aluminum | | \$ 1.45 |
| Glass | | \$ 0.047 |
| PET Plastic | | \$ 0.63 |
| HDPE Plastic | | \$ 0.08 |

| Table 4. | DROPOFF or COLLECTION PROGRAMS ONL | .Y |
|---------------|------------------------------------|--------------------------------------|
| Material Type | | Refund Value Per Commingled Pound |
| Aluminum | | \$ 1.50 |
| Glass | | \$ 0.051 |
| PET Plastic | | \$ 0.68 |
| HDPE Plastic | | \$ 0.12 |

| Table 5. | COMMUNITY SERVICE PROGRAMS ONLY |
|---------------|--------------------------------------|
| Material Type | Refund Value Per Commingled Pound |
| Aluminum | \$ 1.51 |
| Glass | \$ 0.057 |
| PET Plastic | \$ 0.69 |
| HDPE Plastic | \$ 0.10 |

^{*(}B) and (C) only are to be used to calculate the Refund Payment.

Note: The containers that produce the <u>Containers Per Segregated Pound</u> (CPP) in column (A) vary in size. Consequently, the refund value is \$0.05 for some containers (<24 oz.) and \$0.10 for others (≥24 oz.). Therefore, one cannot simply multiply the CPP average by either refund value to get the <u>Refund Value Per Segregated Pound</u> rates, column (B).

^{**} For machines intake volumes only.

How to use this chart:

40

- 1: Determine weight of customer's load.
- 2: Find the number of "WHOLE POUNDS" on the chart.
- 3: Look across the chart under the material type being weighed. Note the amount paid in CRV for that many whole pounds.
- 4: Find the amount of the customer's load that is a fraction of a pound ("TENTHS OF A POUND") and note the amount paid for CRV for that part of the load.
- 5: Add the two amounts.

Note:

For loads containing one (1) CRV container, determine payment based on count.

For loads containing two (2) CRV containers or more, payment can be determined using this char

How to use this chart:

- 1: Determine weight of customer's load.
- 2: Find the number of "WHOLE POUNDS" on the chart.
- 3: Look across the chart under the material type being weighed. Note the amount paid in CRV for that many whole pounds.

\$10.50

4: Find the amount of the customer's load that is a fraction of a pound ("TENTHS OF A POUND") and note the amount paid for CRV for that part of the load.

\$8.10

5: Add the two amounts.

Note:

For loads containing two (2) CRV containers or more, payment can be determined using this chart.
